Plenty Farm Help Available.

A party of some 500 immigrants arrived in Edmonton from the Old Country last week and were distributed throughout the province for farm work. About 30 came to Stony Plain and were immediately located on farms. Another contingent is due to arrive in the near future and anybody wanting cheap farm labor for the spring work, should place their order with Paul Werner, local agent. No orders too small nor none too large; so come early and pick your choice.

Railway Time Table.

Going east, 6.30 p. m — Monday Wednesday and Friday.

5.13 a. m., every morning, stops on flag only.

Going West, 1.30 p. m. — Monday, Wednesday and Saturday.

4.05 a. m., everyday, stops on flag only.

Duffield News.

Grace Jennie Hopkins, wife of A E Hopkins of Duffield passed away in an Edmonton Hospital on Saturday last. The remains were sent to Duffield Monday morning, where the interment took place in the local cemetery. Councillor Hopkins has the sympathy of the entire community in his sad bereavement.

Ferdinand A Geele of Duffield passed away in Edmonton on Saturday at the age of 62 years. He is survived by his wife and four children. The body was forwarded Monday morning to Duffield where the funeral services were held, on Tuesday afternoon at 1.30 o'clock, C. H. Reppert officiating.

Saturday, March 27.

LOCAL NEWS.

Mr Thomas Gordon was a Stony visitor this week, renewing old acquaintances in town and district.

Assemblyman Washburn returned home from Edmonton this morning.

Mr Sam Zucht made a trip to the City yesterday on very special business.

Wm Comisarow has purchased the building now occupied by the Cash Store on Main street, next The Sun office.

Mrs E L Duthie has returned home after undergoing an operation for appendicitis in an Edmonton Hospital.

Mr and Mrs D Roberts of Edmonton were Wednesday visitors to Stony.

The Stony Plain Town Council meets in the Town hall next Thursday evening.

The Girls' Club is holding a big play, "Miss Fearless and Co" in Wudel's Hall on Monday, April 5th. A dance will follow the show, Meredith's Edmonton Orchestra will supply the music.

The Edmonton Spring Stock Show will be held this year at the Exhibition Grounds on April 5 10.

The Special Demonstration of Star Cars, which was postponed from last Saturday on account of the condition of the roads, will take place this Saturday, March 27.

The death occurred on Tuesday, March 23d, of Mr Cameron Anderson at his home in Edmonton. The deceased was well-known in Stony, having erected the new School in town, which was just completed a couple of months ago.

The death took place on Sunday morning of the young daughter of Mr and Mrs A. Meredith of Stony Plain. The funeral was held on Wednesday afternoon from their residence to the Lutheran Cemetery where many friends and relatives gathered to be present at the burial.

Percy Faulkner of the Canadian Bank of Commerce, left Sunday night for St. Paul de Metis where he expects to relieve for three weeks. Percy will be missed from town as he has taken an active part in the social and entertainment life of the community for some little time. Best wishes will follow him.

A Year of Activity

With the coming of April, Western Canada will be away to a good start on another year of development and progress which, from present indications, promises to surpass any year since before the war. There are tangible and solid reasons providing a basis for this belief and offering encouragement to all Canadians who have a firm conviction of the future greatness of their country.

The financial statement of the C.P.R. for 1925 was the best one for the past nine years, and, after paying all expenses of operation, debenture interest and a ten per cent. dividend, provided an ample surplus of some millions of dollars. The financial showing of the Canadian National Railways was particularly gratifying and resulted in the largest operating surplus yet recorded, and bringing within measurable distance the time when the National's earnings will be sufficient to also take care of all interest charges.

From the position occupied a few years ago of being seventh among the nations as an exporting country on a per capita basis, Canada last year achieved second place, and at no time since war activity ceased has industry and trade generally been so promising or expanding so satisfactory. All the annual meetings of Canada's largest corporations and institutions have heard the same story of betterment taking place last year, and with even brighter prospects for 1926.

During the past two weeks the Western Grain Pools paid out over $37,000,000 in cold cash to the farmers of Manitoba, Saskatchewan and Alberta as a further payment on account of their 1925 crops, a truly enormous sum of money to be placed in circulation right at the outset of a new season's operations.

This huge second payment helps one to realize the fact that the cash value of wheat delivered by farmers at country stations during the four and one-half months, August 1 to December 5, 1925, was $328,800,000, or an average of $1,300 per farm, with 55,000,000 bushels still to be marketed. Not only is this a new record, but these 4½ months of 1925 beat the whole of the preceding twelve months by no less than $50,000,000, and was $35,000,000 greater than 1923-24, $80,000,000 greater than 1922-23, and $130,000,000 greater than 1921-22.

During 1925 a larger acreage of farm lands was sold in the three Western Provinces than in the three years of 1922, 1923 and 1924 combined, and practically all direct to land users. In addition to the 673,062 acres thus sold by companies, homestead entries totalled 635,840 acres, or a total of 1,308,902 acres taken up last year.

These are but a few of the basic reasons for the increased development and progress which may be confidently expected this year. The effect is already noticeable in increased building activity all over the West which now promises to surpass anything witnessed for a considerable number of years past, and in the expanding operations of most big industrial concerns in the East.

Another evidence that new created wealth will find its way into channels leading to development and greater business activity is found in the fact that during the past couple of years the indebtedness of Western municipalities, school districts, and other public and semi-public bodies has been largely decreased, and new wealth instead of going to liquidate old debts will be available for new undertakings and progressive development. In Saskatchewan, for example, the Local Government Board report for 1925 states that many municipalities and school districts have cleared themselves of all debenture indebtedness so that the tax rate can now be materially reduced and all current revenues devoted to constructive and maintenance purposes. It is further stated that the amount of debenture indebtedness repaid during 1925 far exceeded the amount of all new capital loans made.

With the opening of spring activities in all branches of human endeavor in Canada, and particularly in the West, the situation is most hopeful and more encouraging than for a decade. Nothing in the nature of the old-time booms is looked for, and certainly is not to be desired, but it is quite apparent that the time is opportune for the progressive, far-seeing man, whether on the farm or in town or city, to draw away from the more conservative policy which the past few years, and generally unsettled conditions, forced upon him and move forward in a larger, more vigorous policy. The opportunities which 1926 offers should not be ignored nor neglected.

The wise man not only lets his wife have the last word, but he is tickled to death when she reaches it.

A hyphen is the only plausible excuse for breaking your word.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Acetyl Salicylic Acid, "A. S. A."). While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Greatest Wheat Producer

Saskatchewan Leads in Production of Wheat, Oats and Flax.

A survey of agricultural returns reveals that Saskatchewan, in addition to being the leading wheat producing province of the Dominion, is also the heaviest producer of oats in Canada, and similarly leads in the output of flax seed. Manitoba leads as a producer of barley and rye. Ontario is the greatest producer of alfalfa, whilst Quebec leads in the yield of hay and clover.

A TIRED FEELING IN SPRINGTIME

Not Sick, But Not Up to the Mark —You Need the Help of That Sterling Tonic, Dr. Williams' Pink Pills — They Give New Vitality.

With the passing of winter many people feel weak, depressed and easily tired. The body lacks the vital force and energy pure blood alone can give. In a word, while not exactly sick, the indoor life of winter has left its mark upon them. A blood-building, nerve-restoring tonic is needed to give renewed health and energy. Dr. Williams' Pink Pills are an all-year-round blood builder and nerve tonic, but are especially useful in the spring. Every dose helps to make new, rich, red blood, and with this new blood returning strength, cheerfulness and good health quickly follow.

If you are pale, easily tired, or breathless at the least exertion, if your complexion is poor or you are troubled with pimples or eruptions, Dr. Williams' Pink Pills are just what you need to put you right. If you have twinges of rheumatism, are subject to headaches and backaches, if you are irritable and nervous, if your sleep does not refresh you, or your appetite is poor, you need the treatment Dr. Williams' Pink Pills alone can give—you need the new blood, new strength and new energy this medicine always brings. Mrs. Emma Fraser, Thessalon, Ont., says: "Two years ago my nervous system was in such a condition that life seemed a burden. I could neither work, eat or sleep well. I tried several medicines, but did not get any relief. Indeed my condition seemed to be growing worse. Then Dr. Williams' Pink Pills were brought to my attention and I decided to try them. After using a few boxes there was no room to doubt that they were helping me. I continued their use until I had taken eight boxes, when I was completely restored to health, and I have not any time since had a symptom of the trouble. When I began the use of the pills I weighed only 96 pounds, while under their use with my renewed health I now weigh 125 pounds. I feel it impossible to praise Dr. Williams' Pink Pills too highly."

Keep Your System Toned Up

Try Dr. Williams' Pink Pills for anaemia, rheumatism, neuralgia, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you well and strong. You can get these pills through any medicine dealer or by mail at 50c a box from the Dr. Williams Medicine Co., Brockville, Ont.

If you are unable to finance a trip to a winter resort you can have just as much fun ridiculing the wealthy loafers that do.

Rub it in for Lame Back.—A brisk rubbing with Dr. Thomas' Eclectric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out and there are ample grounds for saying that it is an excellent article.

Through Service For Steamship Passengers

Canadian Pacific Railway Inaugurates Through Tourist Sleeping Car Service

For the convenience of western passengers enroute to the Old Country, the Canadian Pacific Railway have inaugurated a through tourist sleeping car service from Winnipeg to Saint John, N.B.

These cars will leave Winnipeg on "The Imperial" at 10.00 a.m. every Tuesday until April 20th, providing through service to the ship's side at Saint John.

This service will prove extremely popular with passengers from the prairie provinces, eliminating as it does, changing trains at Montreal.

She (enthusiastically): Oh, I would have given anything in the world for that vase.

He: Well, why didn't you buy it?

She: Buy it! Why, the man wanted five dollars for it."

Minard's Liniment used by physicians

W. N. U. 1621

Why Torture Yourself?

As we get along in life most of us experience rheumatic and other pains, consoling ourselves with the knowledge we are no exceptions to the general rule. Instead of carefully investigating the cause of the pain, as we naturally would do if a horse, cow or pet dog were the sufferer, we grin and bear it or, if it gets too bad, get something to relieve it for a while. If, however, we candidly admit the fact that our own pains and ninety-five per cent. of those of other people are caused by the wrong foods we and they are regularly eating, whether we require food or not, an enormous amount of suffering could be avoided by mending our habits.

Man only, out of all creation, destroys, by cooking and refinement, his food values which, if retained as originally intended, would preserve his disease resistance to the end of long, healthy and enjoyable life. No man or woman whose diet is constantly robbed by refinement and cooking of those potassium and other salts, lavishly provided by Nature, can hope or expect to remain in normal health. Most of the deadly diseases, including cancer and rheumatism, are caused by potassium deficiency in the sufferers' systems, and the fact that, in advanced cases of the two named maladies, it is almost impossible to detect differences between blood samples from each under a high powered microscope, emphasizes the original cause of both. Yet, in apparently hopeless cases of both these and other diseases of similar origin, if the potassium deficiency be remedied the malady will retrograde until, with the elimination of poisons from the blood under home treatment and sane diet, those who will thus help themselves can win back health and prolong their lives. Threatened by rheumatism with crippled and curtailed existence, the writer, new past his sixtieth birthday, acted on the above simple directions and, freed from pain and fully enjoying life, heartily wishes a like relief to other sufferers. Charles Welter, 51 Brunswick, Ave., Toronto.

Lethbridge Irrigation District

The Lethbridge northern irrigation department has placed 138 new settlers on the project up to January 31st, 1926, and had registered 377 home place farm units to a total of 53,262 irrigable acres, or an average farm unit of 141 irrigated acres, according to the annual report of the manager, James Pike.

Cause of Asthma. No one can say with certainty exactly what causes the establishing of asthmatic conditions. Apart from the nature from flowers, from grain and various other irritants may set up a trouble impossible to eradicate except through a sure preparation such as Dr. J. D. Kellogg's Asthma Remedy. Uncertainty may exist as to cause, but there can be no uncertainty regarding a remedy which has freed a generation of asthmatic victims from this scourge of the bronchial tubes. It is sold everywhere.

Love may make the world go round, but it makes young men's arms go around waist places.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms pass from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonical and health-giving in their effects.

The Sheep Industry

It is estimated that forty thousand lambs, or twenty-five per cent. more than last winter, are on feed or have been finished and sold in the Lethbridge and Calgary districts. One company has 10,000 head fattening on screenings at Calgary.

The First Sandwich

Years ago there was a certain Lord Sandwich who was so fond of playing cards that he did not care to stop either for sleep or for meals. However, men must eat, so, to save time, he ordered his servants to bring him a piece of meat laid between two slices of bread, so that by eating it he should not grease his fingers and soil the cards.

Hard and soft corns both yield to Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Criminals Use Plastic Surgery

Through the recent capture of a burglar who had his facial appearance altered by surgery, attention was called to the increasing use of plastic surgery by criminals to escape identification. On the prisoner was found a receipt for £90 paid to a surgeon for changing the contours of his ears, chin and nose.

No Enduring Security Can Be Found In Armaments And In Separate Alliances

Edward Grey's conclusions are real, and they have the significance of coming from a man who knows, and who has been through Hell for his wisdom. He does not see any hope in the "new diplomacy" for that may be just as dishonest as the old. Nor does he linger over the distribution of "war guilt," though he believes that Prussian militarism was the precipitating agent for the debacle. Regardless of Germany, he asks:

"With Europe an armed camp, could peace have been preserved much longer? Every country had been piling up armaments and perfecting preparations for war. The object in each case had been security. The effect had been precisely the contrary of what was intended and desired. Instead of a sense of security there has been produced a sense of fear . . . and fear predisposes to violence and catastrophe."

He goes on to show that "the notion that Germany can be kept permanently disarmed by temporary expedients, such as foreign missions of control, is an illusion." In the long run there can be no security in Europe without a Germany that is genuinely working for peace, but it remains for the victors to start on the better way and give Germany a chance to join:

"The lesson of European history is so plain. It is that no enduring security can be found in competing armaments and in separate alliances; there is no security for any power unless it be a security in which its neighbors have an equal share."

That is the high note in Lord Grey's book. It was written before the signing of the Locarno treaties, but it might have been the charter behind them. How then is this lesson to be applied? Partly by good will and partly through the solemn realization that unless man can learn by his experience he will perish:

"War used to imply a contest between armies; it will henceforth by common consent mean the destruction by chemical agencies, of the crowded centres of population; it will mean physical, moral and economic ruin. . . . There will be no secure peace until the great nations of the world have a consensus of opinion among them sufficient to inspire confidence that they will stand by each other to avoid, to suppress, or to localize and insulate war."

He believes that though England and her dominions are shy of pledges to the League of Nations and the United States refuses to join, yet public opinion is in fact deeply concerned and slowly grasping the truth that competition in armaments does not lend security. The next step is the realization that a sense of security will prevent armaments. Then the final problem will be faced, how to produce this unmistakable feeling of security. "The solution of this problem is the supreme need of civilised mankind."—From a Review of Lord Grey's "Twenty Five Years," in the Survey.

Toronto's Big Fair

Canadian National Exhibition Now Approaching Imperial Status

Indications that the Canadian National Exhibition is approaching an imperial status and forecasts of an attendance of two million people at future fairs, were features of the annual report of the Exhibition's executive. "The trend toward empire or world fair proportions," the report said, "was never more clearly defined than at this moment, when we have requests before us for space from such distant parts of the British commonwealth as India, Africa, Gold Coast, Barbados, Honduras and New Zealand, while such countries as Mexico, Colombia, Czecho-Slovakia and Switzerland are also asking for space. There is not sufficient to provide the amounts requested."

Forgot At the Source

"What's that piece of cord tied round your finger for?"

"My wife put it there to remind me to post her letter."

"And did you do it?"

"No; she forgot to give it to me."

World Poultry Congress

Large International Gathering To Be Held This Year in Ottawa

Arrangements are well under way in Ottawa for holding the World Poultry Congress in the Canadian capital from July 27th to August 4, 1927.

A World Poultry Congress is held every three years. The first took place at the Hague in 1921 and the second in Spain in 1924. At the second congress, Canada presented an invitation for the third international meeting of poultrymen to take place in Ottawa in 1927. This invitation was accepted.

The next World Poultry Congress promises to be the largest international gathering which has taken place in Canada. Before the formal invitations were issued some twenty countries had already signified their intention of being officially represented. Invitations have been issued to practically all foreign countries and all sections of the British empire, over the signature of His Excellency Baron Byng of Vimy, Governor-General of Canada.

Saskatchewan Horses

Remarkable Showing Made By This Province At Big Fairs Last Year

Saskatchewan horses made a remarkably good showing at the Toronto Royal and International exhibitions last year, judging from the final record of winnings. With 23 entries, 35 prizes were won at the Toronto Royal, 19 for Clydesdales, 14 for Belgians and 2 for Percherons. Five championships, 1 special trophy and 4 reserve championships were included in the prizes won. At the International show at Chicago, 24 Saskatchewan horses carried off 44 prizes, which included 3 championships, 5 reserve championships and 1 special medal.

Good News For British Navy

"Salt junk," otherwise salt pork, which has been an important part of the British navy's rations for centuries, has been banished by an order of the admiralty. It is announced that no salt pork henceforth will be served on British warships. Canned meats and canned vegetables are to take their place as reserve food when the fresh articles are not available.

Improved Farm Lands

Average Value of Occupied Farm Lands For Canada As a Whole

The average value of occupied farm lands for Canada as a whole, including both improved and unimproved, as well as dwelling houses, barns, stables and other farm buildings, was $38 per acre in 1926, as compared with $37 in each of the two preceding years, according to a report of the bureau of statistics. By provinces the averages are as follows, with the preceding year's values given in brackets: Prince Edward Island, $45 ($40); Nova Scotia, $37 ($33); New Brunswick, $34 ($37); Quebec, $54 ($53); Ontario, $67 ($65); Manitoba, $29 ($28); Saskatchewan, $24 ($24); Alberta, $26 ($25); and British Columbia, $88 ($96).

Egg-Laying Contest

Canada Makes Good Showing In Competition With the World

Canada is well to the fore among the nations of the world which take part in the egg-laying contest for hens during 1925. The average production by Canadian hens entered in the competition was 171.6, which compares with the high of 210.3 made by New Zealand birds and the low of 118.3 registered in Belgium. Other results were as follows: United States, 164.4; British Isles, 171.4; Netherlands, 179.8; Denmark, 146.7; Tasmania, 187.5; Australia, 205; and South Africa, 165.6.

Tobacco Growing In Exports

Industry Is Now To Receive Further Government Assistance

Tobacco growing in Ontario is to receive further government assistance. A commission of three professors in agriculture, on instructions from the minister of agriculture, will make a survey to ascertain the soils best adapted to the culture of tobacco. They will also inquire as to the best varieties, both for the Ontario soil and for the markets. Soil tests will be made on various farms and also at the government experimental stations within the tobacco districts.

Interesting Find of Russian Explorers

Imbedded in ice a party of Russian explorers discovered the remains of an extinct animal believed to have died 50,000 years befor the birth of Christ. The skin was so perfect that it was easily removed. Some of the hairs measured thirty inches. An analysis of the stomach contents revealed grass and flowers of the same types which grow in Northeastern Siberia today.

New Variety Of Wheat May Have Effect of Revolutionizing Grain Growing in the West

The new wheat named "Garnet" developed at the Dominion experimental farm at Ottawa, will be available for distribution this spring, and it is conservatively stated may have the effect of revolutionising again wheat growing in Western Canada. No more could be said of the potentiality claimed for this new variety than that it will probably have a stimulation as great as when Marquis wheat was first developed and made available to farmers.

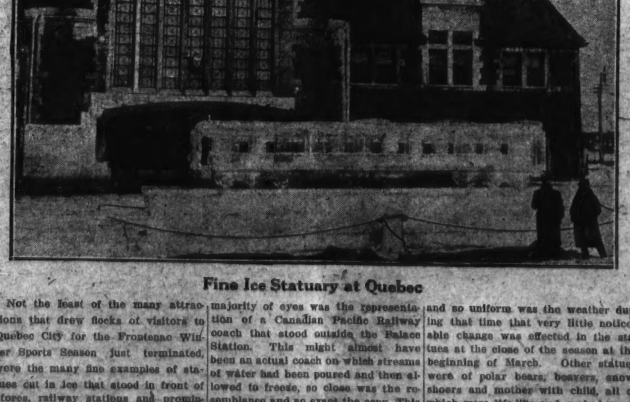
A decade and a half ago Marquis wheat, which was produced after long years of experimenting upon demands for an earlier maturing wheat, proceeded to revolutionize grain growing in the prairie provinces, and has been an outstanding factor in developing that area into one of the great granaries of the world. Marquis wheat reduced the period between seeding and harvesting from 120 to 110 days, which meant that wheat of the finest quality could be garnered well in advance of the time necessary for the ripening of former varieties, and that the risk of injury from rust, hail and frost—principally the first—was largely diminished. It meant that hard spring wheat could be cultivated successfully in areas much farther north, and it brought millions of acres in Western Canada within the wheat belt. It was estimated last year that 90 per cent. of the spring wheat production in Canada, and 60 per cent. of that harvested in the United States, was of the Marquis variety. Marquis wheat has added hundreds of millions of dollars to the wealth of Western Canada, and the world benefit resulting from the discovery has been estimated at half a billion dollars.

Now the new wheat, Garnet, steps upon the stage, and its discovery promises to be an achievement of yet greater moment. Despite the tremendous boon of Marquis, it has been realized that perfection was not yet attained in the development of a wheat suited to the western climate. The annual loss sustained in the last days of the crop season by rust, a destructive disease which attacks the wheat in its ultimate ripening, is stated to be repeatedly a fourth of the western harvest. Working from Marquis wheat, experiments have been ceaseless, looking towards the production of a wheat which would have the same gluten content and high milling quality as Marquis, and yet would mature at a still earlier period. Garnet wheat would appear to be the desideratum. It reduces the period between sowing and harvesting by another ten days, or to one hundred days, and is said to be in every respect the equal of Marquis.

The development of Garnet wheat has been the same patient, painstaking work as characterized Marquis. Experimenting continued from the point where Dr. Saunders, the discoverer of Marquis, left off, his researches being extensively utilized. Season-by season the earlier ripening plants have been sorted out and cultivated. Experiments annually assumed an ever-increasing importance until it was decided to send out seed to the various experimental farms and subject it to various climatic conditions. In 1924 there were innumerable cases where Garnet wheat escaped frost where Marquis was nipped, particularly in Northern Manitoba. In 1925 Garnet wheat was grown on about one hundred selected farms in Western Canada and its record is one which augurs well for the future of the prairies. In Southern Alberta, Garnet wheat ripened and was threshed long before the first temporary snowfall came, and was quite ahead of Marquis. The experience was the same in Manitoba, where, at Morden and Dauphin, Garnet wheat was ready for the binder when Marquis had still ten days or more to go, and bore rust which had the possibility of great injury.

Many additional advantages the new wheat possesses, which will make it very desirable to farmers and others, are pointed out. It matures earlier than either wild oats or sow thistle, so that it would be cut before these had gone to seed. All farmers growing wheat on a large scale, by devoting half their wheat land to Garnet, will probably be able to save themselves the cost of at least one binder, it being possible to cut and stook the Garnet before the Marquis wheat will be ready. From a national point of view the harvest should be ten days earlier, benefitting the grain movement to a certain extent, and making the lake route available this much longer.

Western Canadian agricultural experts express elation over the new wheat which has been given to the country. Garnet is stated to be among the highest milling and baking wheats, a fact satisfactorily established by tests extending over a period of years. To make absolutely certain on this point, however, final milling tests are being carried out at Minneapolis. Providing these are satisfactory, the Federal Government will proceed to distribute the Garnet seed. There is in existence about 12,000 bushels, and it will be distributed in very small lots, probably ten bushels to a farmer. This may possibly be the first stage of a new wheat revolution and the opening of a new era of wheat growing in Western Canada.



Fine Ice Statuary at Quebec

Not the least of the many attractions that drew flocks of visitors to Quebec City for the Frontenac Winter Sports Season just terminated, were the many fine examples of statues cut in ice that stood in front of stores, railway stations and prominent buildings all over the Ancient Capital. Of these one that drew a majority of eyes was the representation of a Canadian Pacific Railway coach that stood outside the Palace Station. This might almost have been an actual coach on which streams of water had been poured and then allowed to freeze, so close was the resemblance and so exact the copy. This piece of art work in ice stood opposite the station for close on two months and so uniform was the weather during that time that very little noticeable change was effected in the statues at the close of the season at the beginning of March. Other statues were of polar bears, beavers, snowshoers and mothers with child, all of which were life-like and evoked much admiration from the thousands of people who saw them.

Canada's Leading Manufacturing Industry

Pulp and Paper Industry Has Made Rapid Strides

One of the outstanding features of Canadian industrial development in the past twenty years has been the rapid growth of the pulp and paper industry from a position of relative insignificance to that of the leading manufacturing industry in Canada. It attained this position in 1923, when it displaced the flour milling industry which had held first place in 1921 and 1922. There were 115 plants manufacturing pulp and paper in 1924, with a capital investment of $459,457,896 and a combined output valued at $187,174,703. Since these figures were compiled, the industry has made considerable headway and statistics covering operations for the year 1925, will undoubtedly show an even better relative position, insofar as the other major industries of the Dominion are concerned.

WORLD HAPPENINGS BRIEFLY TOLD

The Ottawa city council has set May 1 to September 25 for the period of daylight saving for this year.

The London Daily Mail reports the massacre of a party taking electrical equipment to Lhasa, forbidden city of Tibet.

A tentative statement on Alberta's production of petroleum for 1925 shows that the 1925 output in the province alone was greater than the production for all Canada in 1924.

British Columbia tree seeds are being prepared for shipment to many parts of the world for reforestation purposes by the government lands and forestry branch, New Westminster.

A new type of rudder for motor boats, by which it is possible to bring a vessel to a standstill within ten feet, with the propeller in motion, has been invented by Mr. Nylander, a well-known Swedish engineer.

2 Years' Backache Subdued by "Nerviline"

"Backache was the bane of my life, and for two years I was so lame as to be unfit for work," writes E. S. Sloane, from Georgetown. "While in Smith Bros.' Drug Store, I heard of Nerviline being a wonderful pain-destroyer, so I decided to try Nerviline. Thanks to Nerviline, my two-years' backache was rubbed away, and to-day I am perfectly well."

All those who suffer from weak, aching backs, those whose muscles are stiff, whose joints are swollen, let them try Nerviline—the liniment that never fails. 35c at all dealers.

The trouble with the present generation is that it is present everywhere but at home.

A great many orators mix the oil of eloquence with the water of weak argument.

4570 Barony

Why He Succeeded

From hard work on a farm to the study of medicine in Cincinnati, where he was graduated, was the course which Doctor R. V. Pierce took.

In his younger days he practiced medicine over a large district. It was then the new oil fields near Titusville, Pa. Finally he determined to put up some of his prescriptions in ready-to-use form in order to reach a larger number of families.

He thus early moved to Buffalo, N. Y., and established the World's Dispensary, where he put up Dr. Pierce's Golden Medical Discovery for the blood as well as the Favorite Prescription for women, carefully preparing them from roots, barks and herbs and placed them with druggists everywhere.

During the last sixty years Dr. Pierce's Discovery, for the blood, has been sold in larger quantities by druggists than any other medicine. It is a tonic in its effects on the stomach and digestive apparatus; an alterative in its action on the blood, liver and skin. It increases the appetite, stimulates the digestion, enriches the blood, and makes both men and women feel as they did when they were young and care free.

Ask your druggist for Dr. Pierce's Discovery, in tablet or liquid form, or send 10c for trial pkg. of tablets to Dr. Pierce's Laboratory, in Bridgeburg, Ont.

W. N. U. 1621

Honduras Settles Old Debt

International Credit Hurt By Debt Of Fifty Years Standing

Congress ratified the agreement signed at Washington, October 29 last for the settlement of a debt to Britain contracted more than half a century ago.

The people of Honduras are gratified over the settlement because they feel that it re-establishes the international credit of this country and insures an era of prosperity.

A Honduran debt was floated fifty years or more ago in Britain amounting to £5,000,000, but before the settlement was reached it had climbed to nearly £30,000,000.

"DIAMOND DYE" ANY GARMENT, DRAPERY

Just Dip to Tint or Boil to Dye

Each 15-cent package contains directions so simple any woman can tint soft, delicate shades or dye rich, permanent colors in lingerie, silks, ribbons, skirts, waists, dresses, coats, stockings, sweaters, draperies, coverings, hangings —everything!

Buy Diamond Dyes—no other kind—and tell your druggist whether the material you wish to color is wool or silk, or whether it is linen, cotton or mixed goods.

SUNDAY SCHOOL LESSON

MARCH 28

REVIEW: THE GOSPEL OF JOHN

Golden Text: These are written, that ye may believe that Jesus is the Christ, the Son of God; and that believing ye may have life in His name. John 20.31.

Devotional Reading: John 17.1-8.

A Review By Means of Allusions

Let all pupils who recognize the allusion in each statement below, signify this after it is read. Call for the allusion and question about the lesson in which it occurs.

"I asked Chalmers to come to see me in the autumn, and he answered somewhat sadly, 'The night cometh,' and I gathered from these words that he had a presage that his days were few."

He who stooped to heal a mother's sorrow, to comfort her heart with the assurance that she was not forgotten, stooped to heal the sorrows of a universe, and to make it clear to all that they were not forgotten.—W. M. Clow.

"If the voice of Christ is to a man as the voice of a stranger, it is because he does not belong to Christ's fold."

Where it listeth, there it bloweth; We hear the sound, and no man knoweth —
Whence it cometh or whither it goeth, And thus it is with the Holy Spirit.
—Longfellow.

Here I live opposite a church, which is a terrible situation for one who prays neither upon this nor upon that mountain, and who has no prescribed hour for worshiping God."—Goethe.

"Jesus wept"—whereon is prest Full many a sobbing face that drops its best —
And sweetest waters on the record swest.—Mrs. Browning.

She, while apostles shrank, could danger brave,
Last at his cross, and earliest at his grave.—Mrs. Browning.

Relieved After Other Remedies Had Failed

Ontario Lady is Very Enthusiastic About Dodd's Kidney Pills

Mrs. P. Alexander Was Run Down, Had Pains in Her Back and Her Blood Was in Poor Condition.

Nickleton, Ont. — (Special). — One more tribute to the great work Dodd's Kidney Pills are doing for women of Canada comes from Mrs. P. Alexander, well known and highly respected here.

"I was very run down and often had pains in my back," Mrs. Alexander states. "My blood was also very bad. I read in the paper about Dodd's Kidney Pills and thought I'd try a box. I have tried many other medicines and they did not relieve the pain in my back. Shortly after taking half a box of Dodd's Kidney Pills I felt my pain was not so severe, so I continued taking them—three boxes altogether and can say they have no equal for kidney trouble. My father would never be without them in the house. He suffered very much from kidney trouble."

Weak, nervous, run-down women should give Dodd's Kidney Pills a trial at once.

CLIPSE FASHIONS

Exclusive Patterns

by Hazel Cooper

1288

Plaid's Temper Straight Silhouette

A two-piece idea is featured in this one-piece frock fashioned of figured crepe, the bodice section being joined to a lower one at the front, which attains fullness by means of double inverted plaits. The back is plain, and long full sleeves may be joined to the kimono shoulders. The convertible collar is fashioned of a darker tone material matching the patch pockets, which hold in place a narrow tie belt. No. 1288 is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 bust requires 3¾ yards 54-inch material. Price 20 cents.

The secret of distinctive dress lies in good taste rather than a lavish expenditure of money. Every woman should want to make her own clothes, and the home dressmaker will find the designs illustrated in our new Fashion Book to be practical and simple, yet maintaining the spirit of the mode of the moment. Price of the book 10 cents the copy.

Minard's Liniment for sore throat

Indians Are Prosperous

The Indians of the prairie provinces in 1925 reaped over a million bushels of grain and had on their farms fifty thousand head of livestock, according to government reports. The cultivated area of Indian lands was increased 11,230 acres during 1925, bringing the total up to 104,495 acres, and of this 66,429 acres were sown to grain.

Nova Scotia produces about 2,000,000 barrels of apples annually.

California was discovered by Sir Francis Drake in 1578.

She Could Hardly Do Her Housework Nerves Were So Bad

Mrs. I. M. Parks, Consecon, Ont., writes:—"I had heart and nerve trouble, and because so short of breath I could hardly do my daily housework, and was so nervous I could not think of staying alone, as every little sound I heard felt like a shock to me.

I Saw MILBURN'S HEART NERVE PILLS recommended, so I tried a box, and after taking the second one I am now feeling like a different woman."

This preparation has been on the market for the past 32 years and has achieved a wonderful reputation for the relief of all heart and nerve troubles.

Put up only by The T. Milburn Co., Limited, Toronto, Ont.

Let this great Tonic build you up!

If your body is skinny and run-down, if you can't eat or sleep, have fits of nervousness, pimply complexion, you need Tanlac to put some solid flesh on your starved bones and bring you back to health.

Tanlac is Nature's great tonic and builder. It is made, after the famous Tanlac formula, of roots, barks and curative herbs gathered from the four corners of the globe.

Get a bottle of Tanlac at your druggist's today. Start the good work at once. You'll feel better right from the first. In a week's time you'll feel like a new person.

For Tanlac gets right down to the seat of trouble. It purifies the blood, aids digestion, helps the appetite, puts on pounds of flesh.

Millions of men and women who were once sickly and discouraged have been lifted right back to health and strength by the Tanlac treatment. Our files contain one hundred thousand glowing testimonials from grateful users.

Tanlac will help you just as it has helped millions of others. Buy a bottle at your drug store today and start the winning fight for prime, vigorous health. Don't put off good health any longer, and for constipation take Tanlac Vegetable Pills.

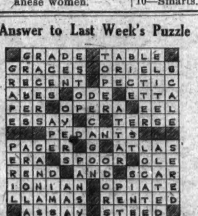
46—Note of the scale.
48—Regarding.

Answer to Last Week's Puzzle



Party Whip's Success

Henry Elvins Spencer, who has been appointed Whip of the Progressive party in Canada, is a native of Great Aine, Stratford-on-Avon, England, where he was born 43 years ago. At the age of 25 he left England to take up farming in Canada and soon acquired a quarter section (160 acres) in Alberta. He was joined a few years later by a brother from England, and today they own and cultivate between them more than 2,000 acres.

It will Prevent Ulcerated Throat.—At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Eclectric Oil. Add a little sugar to it to make it palatable. It will allay the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

If a cooper can't make a barrel of fun, he can at least have a staving good time trying.

Minard's Liniment for colds

NABOB TEA

"Tea as it should be"

Self-Poisoning Increasingly Common

Modern Living Habits Promote Self-Poisoning—Thousands are Victims

The average man or woman does not enjoy consistent good health. Loss of appetite, headaches, biliousness and a lack of enthusiasm for either work or play are constant complaints.

Scientists have ascertained that such a condition is usually caused by self-poisoning resulting from constipation.

Due to modern living habits, the natural secretion which promotes regular elimination by softening the bowel contents, is often deficient—especially among middle-aged people. The poison from waste matter remaining in the systems of people thus affected is the insidious enemy of good health.

Such people need *Nujol*, because *Nujol* softens the waste matter and permits thorough and regular bowel elimination without overtaxing the intestinal muscles. It helps Nature help you.

Ask your druggist for *Nujol* to-day—and remember, look for the name "*Nujol*" in red on both bottle label and package.

BRAZILIAN VETO KEEPS GERMANY OUT OF LEAGUE

Geneva.—The assembly of the League of Nations ended its labors and the principal object for which it had been convened remained unaccomplished. Germany's election to the league has been postponed until the September session, and, necessarily, Germany has been compelled to forego the honor of a permanent seat in the league council. After ten days of negotiations, Brazil maintained her decision, to veto Germany's election unless she herself was accorded a permanent seat in the council.

When the assembly met, Senor Mello Franco announced Brazil's decision and immediately Sir Austen Chamberlain, the British foreign secretary, proposed postponement of Germany's election until the fall.

Italy alone, of all the great powers represented permanently in the council, refrained from joining in the expression of regret that Germany had to content herself outside the league for the time being.

This silence of Mussolini spokesmen was the outstanding subject of comment in Geneva, when all men were plainly worried about the future of the league, because of fears that this setback would be very difficult to overcome.

The council, in secret session, immediately attacked the problem of revision of the statutes of the league. It decided upon the immediate appointment of a special commission to probe the entire problem.

Japs Demand Apology

Formal Apology From China, Is Required But No Force To Be Used

Tokyo.—The cabinet has decided to instruct Kenk-Yoshizawa, Japanese minister at Peking to demand from China a formal apology to the Japanese flag, the punishment of guilty Chinese and the indemnification of the wounded for the action of the Kuominchun (National army) troops in firing upon two Japanese destroyers in the Fei River last week when one Japanese officer was killed and several wounded.

Minister Yoshizawa was instructed to negotiate the details for the carrying out of the demands and to make them as lenient as possible.

It is said that no matter whether China accepts the responsibility or not, Japan does not intend to resort to force, but if no agreement is reached, might take the matter up to the world court. It is pointed out that a friendly and peaceful result is Japan's main idea.

Financial Standing Is Good

Hail Insurance Board of Alberta Has Successful Year

Calgary.—At an annual meeting of the Hail Insurance Board of Alberta here the directors' report stated that the financial standing of the board was the strongest this year since its formation. Manager A. H. Toovell stated that the liabilities at the bank, which had hung like a millstone on the board for years, entirely disappeared. The reserve fund and surplus was $700,644.55. The total risk carried last season had been $10,886,244, which was approximately 20 per cent greater than the risk of the previous year.

Want New Railway

Charter Will Be Asked For Line Through Red Lake District

Ottawa.—Parliament will be asked at the present session to grant a charter for a railway from Quihell, Man., through the Red Lake district to a point on the Hudson Bay division of the Canadian National Railways near The Pas, Man.

The bill for incorporation is now being drafted. The name proposed is the Red Lake and Northwestern Railway Company.

Forming Nobility Colony

Winnipeg.—As a result of the efforts of the Canada Colonisation Association, Manitoba is developing a colony of Hungarian nobility. Four families of the Hungarian nobility have purchased farms adjoining each other.

W. N. U. 1681

Last Week In The Alberta Legislature

Marked Improvement In School Attendance Is Indicated By Report

Edmonton.—The ranks of the Liberal opposition in the provincial house have been thinned by the elevation of their leader, Hon. C. R. Mitchell, to the Supreme Court Bench of the province. As house leader the Liberals selected Mr. J. C. Bowen, an Edmonton member. Mr. Bowen is in the insurance business in Edmonton. There are now nine Liberals in a house of 55 members.

Considerable time was spent in discussion of a resolution put forward by the government asking that the Dominion assign to the province the power rights on the Spray Lakes site, with the option of the province developing power themselves, or controlling development by a private company. The Spray Lakes site is within the Banff National Park area, and for that reason there has been considerable objection to any development work there, but the government resolution stated that the work would not in any way affect the scenic beauty of the park.

An amendment was brought forward by the opposition, couched in somewhat similar terms to the government resolution, but calling for the ownership of the Spray Lakes site by the province.

The resolution passed by a 35-9 majority, Premier Brownlee denouncing the opposition for wasting the time of the house by an amendment almost the same as the government resolution.

A marked improvement in school attendance throughout the province is indicated by figures submitted by the minister of education, Hon. Perren Baker. The number of children of school age who did not receive one hundred days of schooling in 1925 was 36,145, as compared with 60,641 in 1920.

School grants paid in 1925 totalled $1,102,342.47 as compared with $920,332.52 in 1920.

For some days past the house had been working on the details of new Insurance and Municipal Districts Act. The Insurance Act is designed to bring the law governing companies into closer conformity with similar laws in other provinces. It contains 497 clauses, but these are principally non-contentious.

The Municipal Districts Act contains over 400 clauses. Most of these are also non-contentious, but discussion has arisen over these clauses which make property qualifications imperative for councillors and voters. Labor members point out that a man could be elected premier without property qualifications, but not to membership of a municipal council.

The other main argument was on the indigents question, some members insisting that the government take over the care of indigents, while the minister of municipalities maintained that indigents could be more sympathetically, efficiently and economically handled by local organizations.

Indians Dream Of Wealth

Excited Over Coal Find On Simpson Reserve In B.C.

Vancouver.—A special dispatch to the Province from Prince Rupert, B.C., says:

"There is intense excitement at Port Simpson, where the Indians have discovered an outcropping of coal on the reserve. The whole property has been staked and steps taken to record it. No work on it has yet been done, but the Indians are very hopeful. The whole of the United Church Mission property is included in the blocked out area."

Port Simpson is on the British Columbia coast at the mouth of the Skeena River, south of Prince Rupert.

World's Press Conference

Geneva.—At its public session here the league council adopted a report by Foreign Minister Vandervelde of Belgium, favoring the convocation of a meeting of press experts to prepare for a world's press congress, looking to better communication facilities between the various continents.

Will Consider Minimum Wage Law

Ottawa.—The proposal for a federal law on the minimum wage, introduced in the House of Commons by J. S. Woodsworth, Labor, Winnipeg North Centre, will be considered by the committee on international and industrial relations. Premier King made a motion to this effect in the House.

BANK DEPOSITS OF MR. BISAILLON RATHER HEAVY

Ottawa.—Questions put to J .E. A. Bisaillon, former chief preventive officer in Montreal, by Hon. M. H. Stevens, during the progress of the customs investigation drew protest from Oscar Gagnon, counsel for the witness.

Mr. Bisaillon had testified that he had abandoned the liquor business on the thirteenth of April, 1923. As an official of the customs department, his salary had been not higher than $2,500 a year in any of the years following that date up to the time of his dismissal.

Mr. Stevens produced a record of deposits made by Mr. Bisaillon in the four years, 1921 to 1924, inclusive. He asked the witness to explain how it was that, while earning this moderate salary, he had been able to deposit $4,951 in 1921, $4,099 in 1922, $7,389 in 1923 and $14,812 in 1924.

It was at this point that Mr. Gagnon intervened. He claimed that the witness should not be required to answer such a question unless he was given access to his own books and records. Mr. Bisaillon said that the deposits referred to could be explained quite easily, but he must have time to examine his books.

"I object to this question," Mr. Gagnon said when Mr. Stevens asked for an explanation of the deposits. "You are examining my client on a document which he has not seen and without giving him an opportunity to examine it.

"You are treating him as an accused person when he is here as a witness." Mr. Gagnon claimed that the question was illegal and did not come within the law of evidence.

Fewer Veterans Are Settling On Land

Soldier Settlement Board Reports Big Decrease Last Year

Ottawa.—The number of soldier settlers established on the land in Canada with loans advanced by the Federal Government is decreasing rapidly. The report of the soldier settlement board of 1925 shows that 237 veterans were settled in this way, compared with 720 in 1924, and 1,153 in 1923. Regulations adopted in the 1924 session of parliament limits the benefits of the Soldier Settlement Act to those who made application prior to March 31, 1924.

To date a total of $105,750,331 has been advanced to soldier settlers, plus interest paid charges of $6,312,163. Of this amount $408,895 was advanced for Indian soldier settlement.

Bay Line Motions Dropped

Ottawa.—Two proposed resolutions supporting the immediate construction of the Hudson's Bay Railway, and placed on the order paper by Progressive members, were dropped in the house at the request of their sponsors, when orders of the day were read.

The resolutions had been proposed by John Millar (Progressive, Qu'Appelle), and John Evans (Progressive, Rosetown).

Would Change System

Motion to Do Away With Cabinet Ministers Having to Seek Re-election

Ottawa.—Cabinet ministers will not be required to seek re-election when accepting cabinet position, if a motion placed on the order paper by A. B. MacLean, Liberal, Prince, is given effect.

Mr. MacLean's proposal, for which he will ask the approval of the house, will undoubtedly cause considerable debate.

Mr. MacLean, in his motion, points out that "the British Government, the mother of parliaments, has this session introduced a bill making it unnecessary for cabinet ministers to seek re-election when accepting cabinet positions, which has now passed the British House.

The adoption of a similar practice in Canada, he states, "will not in any way endanger the stability of our parliamentary institution, which every true Canadian desires to jealously safeguard."

Should Use Empire Products

Prince Urges Britain To Purchase Canadian Timber

London.—The Prince of Wales, presiding at the opening of the general meeting of the Empire Forestry Association, said that considering what excellent timber of every kind the empire produced, it seemed rather unfortunate that the United Kingdom should be dependent on foreign supplies.

Out of £46,900,000 worth of lumber imported last year, His Royal Highness said, only 13 per cent. was of empire production.

The Prince appealed to the large users of timber, such as railway companies and builders, when placing their orders to remember that Canada produced the finest soft wood timber in the world.

Wanted Conference Next Year

Canadian Government Favored 1927 For Calling Imperial Parley

Ottawa.—The Canadian Government was in favor of calling the Imperial conference in 1927 instead of next October.

This is revealed in the correspondence between the Baldwin Government in London and the Governor-General in Ottawa, tabled in the House of Commons.

Premier Baldwin, however, having intimated that the other dominions preferred to meet next October, and the British Government shared this view, the Canadian Government on February 19 last concurred in the proposal to call the conference for October of this year, and His Excellency cabled this decision to London.

Will Visit Victoria This Spring

Victoria.—In announcing details of a two weeks' sojourn on Vancouver Island this spring planned by Baron Byng, governor-general of Canada, and Lady Byng, the Times says that their excellencies will arrive in Vancouver on April 26. The vice-regal couple will proceed directly to the island, concluding their visit with a two-day stay here on May 16 and 17.

C.P.R. Photo

The "Bull of Bashan" in Canada

Field Marshal Sir Edmund Allenby, the conqueror of Palestine and the deliverer of the Holy Land from the Turk and the modern Crusader who has achieved what had not been done since the Crusades, landed at Victoria recently from the S.S. Aorangi, which has come from Sydney, New South Wales, and touched Honolulu enroute. His Lordship is known because of his thrusting offensive in the war as the "Bull of Bashan" and is now making a trip across the Dominion. Photograph shows Lord Allenby and Lady Allenby.

HINT IS GIVEN OF FORTHCOMING TAX REDUCTION

Ottawa.—Hon. J. A. Robb, minister of finance, gave a hint in the house of lower taxes. He hoped, he said, to work out something that would give a little relief to the people. But in what direction he did not indicate. Mr. Robb cited some comparisons which gave total per capita taxes in Canada at $66.11; Australia, $69.68; Great Britain, $97.12 and United States $67.39. "In other words," said Mr. Robb, "the per capita tax in the United States, the country where they boast much of reduction in taxation is $67.39 as compared with $66.11 in Canada."

Mr. Robb said that he was quite aware that taxes were unpopular things. Everybody wanted them reduced and a lot of people use the most ingenious methods to dodge them. The government of the day issued tax-free bonds during the war, and these bonds had found their way into the strong boxes of the rich who ought to contribute to public revenue, instead of remaining in the hands of the average citizen who purchased them. Whenever the question of taxation was discussed, it was impossible to evade the fact, said Mr. Robb, that Canada had committee herself to certain expenditures and liabilities during the war, that these liabilities were not as yet paid off, and that they would continue to be a charge on the public of Canada for many years to come.

Seek Platinum In Slave River District

Report of Find Has Not Yet Been Confirmed

Edmonton.—A staff correspondent of the Edmonton Journal who has made a special trip to the scene of the reported gold and platinum find on the Slave River near Fort Smith, says in a wireless dispatch from Fort Smith, N.W.T.:

"Company officials scout the idea of a platinum find, and generally have nothing to add to previous statements that it is only a prospect. The lead, which occurs between a limestone and granite contact, is being strapped crosswise by the company, and is stated to be 300 feet wide.

"While many rumors have risen regarding a platinum find, it appears that the location of this, if true, is known only to Dunn and his associates. The rumor arose through samples of platinum having been exhibited by the latter to various people at Fort Smith. It is rumored also that a third company is arranging to come into the field at the opening of navigation."

Boom In Agriculture

Big Development Expected In Western Canada In Next Few Years

Seattle.—Prediction that the next five years will witness the greatest agricultural development in the history of Western Canada was made here by R. C. W. Lett, Edmonton, who is returning to Canada from a tour of the Pacific coast states during which he visited all the large cities of California.

"Canada is the greatest market of the United States and the returning prosperity of Western Canada means a greater market.

"The farm problem in Canada has been, and is, much the same as that of the United States. Since 1915 there has been an agricultural depression that is gradually disappearing. Last year farmers of Western Canada got back on their feet and now their outlook is for an era of good times.

Has 72nd Operation

Baltimore.—Dr. Frederick Henry Battler, Roentgenologist of Johns Hopkins Hospital and Medical School, and one of the most famous scientists in America, underwent his seventy-second operation as a result of X-ray burns.

Will Attend Forestry Convention

Victoria.—F. Z. Caverhill, chief forester of the Provincial Government, will leave here for Europe this week to represent British Columbia at the first world congress on forestry in Rome, April 23 to May 8.

The Stony Plain Sun

That it was really prac tical and worthwhile, seemed to be the opinion of the large number of farmers who attended the Power and Farming school at Stony Plain last week, and as one man put it, "no one could listen to those talks and see those films without learning something." Mr S C Hinking of the Ford Motor Co of Canada and Mr H Donahon of the Oliver Chilled Plow Co proved themselves lecturers who not only had a sound knowledge of their subjects, but had the knack of transferring that knowledge to listeners

Those who were in attendance at the school received many valuable pointers from these men on Power Farming, Soils, Preparation of Seed Bed and Conserving Soil Moisture. The Mechanical Course was most instructive to those who own or operate Ford cars or tractors, as it explained in detail the best methods of handling those vehicles without injuring them, and when injured how to repair them. The Ford man pointed out that while the engine in the Fordson tractor was much heavier and larger than the motor in the Ford car, it is exactly the same in principle and design thus, making the Ford Motor universal.

Clean Grain.

Unclean seed is responsible for most of the weeds in the west. True, there are a few perennial weeds that are native to the country but nearly all of the annual and perennial weeds have been introduced as impurities in seed. The toll that weed growth exacts from the Western farmer is difficult to estimate. In 1921 the dockage from the western wheat crop due to weed seeds was approximately two million bushels, half of which came from Saskatchewan. This represents more than an equal quantity of grain lost because ground that grows a bushel of weed seeds will grow several bushels of grain.

When we try to estimate the enormous losses due to weeds and consider that most of this is due directly or indirectly to impure seed, we can form some idea of the importance of using clean seed.

"Mountain Glissade" is Gaining Popularity

1. Start of Ladies Ski Race during the Revelstoke Carnival. 2. A new diversion—Hockey on skis with a football. 3. Ernest Field winning Descent Race at Revelstoke.

High up on the wooded slopes of Mount Revelstoke a long thin line of black figures is silhouetted against a background of snow. Suddenly a shot rings out and the thin black line breaks into a series of energized units. It is the start of Revelstoke's latest innovation in the long list of thrilling sport spectacles which hundreds of visitors enjoyed recently during the city's twelfth annual carnival. This latest winter pastime is known as the "mountain glissade" and was performed at the Revelstoke carnival for the first time in Canada.

Two thousand feet below the starting point, crowding the street ends of the little town, visitors and citizens alike watched these alert black figures as they sprang away from the bluff, some to the right, some to the left, some straight ahead, but all downward, downward toward the distant goal within the town. Dropping swiftly down the first open expanse of snow the figures disappeared into the wooded depths of the first ravine only to emerge seconds later here and there, helter-skelter, through the trees and snow.

There were spills a-plenty as down the mountain side plunged these mad ski-shod figures, facing unpremeditated hazards every foot of the way. But skiers spill only to pick themselves up again, taking no count of bruises and scratches until the wild race is over.

Gaining momentum in their downward course, the skiers veered sharply from trees and stumps, leaping through the wooded patches, gliding gracefully across the frozen benches of the hills, ignoring the kindly incline of the mountain road which they crossed and re-crossed in their direct descent. Figure after figure used its repeated levels as a take-off to carry them forward and downward in their mad rush through the frosty air.

Suddenly all the figures were lost to view as they neared the foot of the mountain and disappeared into the adjacent forest of spruce and pine and balsam. The crowds in the city streets converged to one point where the race was to finish. Then a shout went up as far across the railway tracks and rounding the last foothill, a swiftly glissading figure flashed into view, and Nels Nelson, Revelstoke's famous ski king, glided swiftly into the city street, down through the avenue of cheering crowds and past the tape.

In exactly five minutes this intrepid world champion ski-jumper had dropped more than 2,000 feet covering approximately two miles in his swift descent. Running him a close second came Ernest Field, another Revelstoke boy who glided past the tape two minutes after Nelson. One after another the glissading skiers returned while the crowd lingered to give each one his meed of applause in a sport which is fast becoming a fine art at the various resorts throughout Europe and which has been introduced in Canada by progressive members of the Revelstoke Ski Club.

Acting As King's Deputy

Prince George Empowered to Confer Order of Knighthood

His Majesty the King has empowered Prince George, his youngest son, who is a lieutenant serving with the British fleet in the Far East, to confer the Order of Knighthood on the Governor and Commander-in-Chief of Hong Kong, His Excellency Cecil Clementi.

The investiture took place March 13. Conferring of knighthood abroad is a rare event. The first occasion on which a son of King George was empowered to act as deputy for his royal father in an investitute of the kind was when the Prince of Wales knighted the late General E. W. B. Morrison, Ottawa, during the Prince's visit to Canada in 1919.

Why Bald So Young!

Cuticura Will Help You
To prevent loss of hair, Dandruff, usually the cause of premature baldness, may be easily checked by regular shampoos with Cuticura Soap, preceded by touches of Cuticura Ointment. This treatment keeps the scalp clean and healthy and promotes hair growth.
Sample Each Free by Mail. Address: Canadian Depot: "Potterton, Ltd., Montreal." Price, Soap 25c. Ointment 25 and 50c. Talcum 25c.
Cuticura Shaving Stick 25c.

Strange, Romantic Love Adventures of the Flapper you know!

Joanna

by H. L. GATES

CHAPTER I.

"Be good, little girls! Dab your noses and put on your smiles. Good Morning is coming!"

It was a wonderfully sweet voice, and solemn. But there was the flavor of a laugh hidden in the mock solemnity. That was a trick of Joanna's. She had adopted it from someone. Joanna adopted all tricks of manner that promised to be successful additions to her own original store of them.

Obediently, the young women who flanked Joanna behind the silk counter, a bevy of sheer, sinuous young persons made in variations of the incongruous pattern of the day, dabbed their noses, softened the craftiness in their too-wise eyes, and shaped smiles about their grotesquely scarlet lips. It was each day's preparation for what was a daily ceremony—the ten o'clock visit to the silk counter of "Good Morning."

"Good Morning," it may be explained, was, in a more definite way, Mr. Leroy Harkness, an imposing gentleman of sleek grooming, risen to the dignity of a long tailed coat, and tremendously impressed by his responsibilities as arbiter of the world's events and, incidentily, the autocratic buyer who rules the destinies of the silk department. Promptly at ten o'clock each morning. The store opened at nine. Mr. Harkness, freshly magnificent, tapped his fingers on the spread of the silk counter, encompassed each of the young women behind it with a friendly condescending glance, and said to them collectively:

"Good Morning!"

There was much rivalry among the servitors of satin as to which of them first would see "Good Morning" down the aisle and announce his coming. And if, by any chance, "Mr. Good Morning's" eyes rested a little longer one one rouged face than on another among his silk counter nymphs, why, there was a full day's scandal ahead.

It happened often; too often. Joanna herself had been bothered a bit of late, because "Good Morning" had fallen into the habit of looking at her, more and more speculatively. The morning before she had decided she could not ignore that meaningful look in the buyer's eyes any longer, and had tilted her chin at him. She was prepared to do it again.

But, strangely, "Good Morning" was not approaching in his usual languidly majestic manner. His expression was stern, as if he carried new matters of importance. He didn't stop at the next counter, but came right along.

"Good Lord," exclaimed the young person on Joanna's right. "He has a grouch. Somebody's in for it!"

Joanna struck her pose. Joanna had many poses, one for every circumstance. For "Good Morning" she had rehearsed a way of elevating her chin, putting her hand to the back of her head so that her elbow and forearm would show off well, and fixing the other on her hip. The effect in her mirror had been extremely satisfactory. But her hand fell from her hair and the one at her hip flopped down suddenly.

Mr. Harkness had no mornings for any of them. He walked directly to where Joanna stood and stopped, abruptly facing her. There was neither smirk nor smile in his half closed eyes. Once he had interrupted an unfortunate shoplifter, and had looked at the trembling young woman in just that manner.

"Miss Joanna," he said, his words sharp and evenly cold, "Have the goodness to go at once to Mr. Gray don's office. You are to be spoken to, by Mr. Graydon himself. At once, if you please."

Pencils dropped to the floor behind the silk counter unnoticed. Eyes stared. Blank faces turned upon the startled girl. And she stored into the fatuous face of the man across the counter as if he had woven her in some evil spell.

Mr. Harkness was, no longer, "Mr. Good Morning." He was an ogre; the serf of a tyrant and bearer of a tyrant's summons. He stood there, cold, immovable, piercing. Waiting; waiting for Joanna, Joanna of the gold brown hair that had watched him on other mornings, to hurry away at this unheard of bidding.

For, so far as the record was remembered at the silk counter, no other girl employee had been summoned into the awful presence of the "Old Man." It augured but one thing. That thing shaped itself in Joanna's mind almost instantly. She had offended a customer; unconsciously, perhaps, but offended one; and an important customer; one who had the ear of the mysterious, unapproachable, thoroughly unknown "Old Man." And that meant, dismissal!

Did you send for me? I'm from the silks, number 271" Her very tone was a challenge.

The buyer's fingers began to drum, warningly, on the counter. A summons to the office brooked no delays. He didn't know what nor how the Old Man so much as knew the name of the unimportant Joanna who, despite that gold brown hair and the captivating poses, was after all, only "Number 27 in the silks." Graydon, owner of the city's largest department store, was not the sort who knew certain ones of his hundreds of young women clerks by name. A few of the managers were that sort; not Graydon.

"I believe I said, 'at once,' Miss Twenty-seven," Mr. Harkness repeated, icily. "I should advise that you interpret that as meaning 'now!'" And then he added the aftersting that brought quiver to the grotesquely scarlet lips; the quiver that the girl bit at and repulsed viciously; "I fancy, Miss, that the other young ladies will conduct the counter satisfactorily until you return from your interview!"

Joanna could have choked him for that. Even in her trouble she remembered the different tone of him and the different light in the eyes of him on the morning of the day before when she flushed under his fawning. He knew, she reflected, that she was going up to the taunting dignity of being dismissed by the owner. His code demanded that he have no consideration for even such a one as she, if she were to go into the owner's black book. But Joanna was Joanna.

"So sweet of Mr. Graydon to send you along for me!" she murmured. "We were discussing you just last evening, you know—Mr. Graydon and I. I was telling him what a nice little boy you are—and shall you run along now, or shall you show me the way?"

If she was going to be discharged she'd leave behind her something to be remembered by! She'd waited a long time to shoot something like that at the supercilious "Mr. Good Morning." She gloried in the smothered gasp which choked in the throat of the girl next her.

"I'm 27. Did the Old—Did Mr. Graydon want to ask my advice about the business today?"

The secretary ignored the affectation.

"Oh, so you are Joanna!" she said, simply. "I sent Mr. Graydon's summons to your department chief. I don't know what it is, but I'm sure it's important. I'll tell him you're waiting."

Joanna, urged by the secretary, found a chair. Somehow the atmosphere of the Old Man's office worried her. It wasn't what she'd expected. Not at all in keeping with the most approved disclosures of old men's dens on the movie screens. It was startling bare, and solid, and sedate. And the secretary wasn't as an owner's office assistant should be. Not even pretty. That is, not pretty according to the silk counter standards. She was pale, and needed touching up at the cheek bones. Joanna could have shown her how to lay on one of red, three of blue, rub it in, and whiten with Florette's pink. And she wore no bracelets or bangles or, even, the dangling jet ear rings which were the mode.

Really, she must be stupid, that secretary of the Old Man's, and with her opportunities! Still — something about her fascinated Joanna. Miss 27 caught herself rubbing at her lips and wondering if she'd marked them too red that morning.

(To be continued)

DOCTOR ADVISED OPERATION FOR MRS. PENN

She Escaped It by Taking Lydia E. Pinkham's Vegetable Compound

Windsor, Ont.—"After the birth of my first baby I was very much run-down in health and the doctor said I must have an operation as I was suffering from a displacement. A friend wanted me to try your medicine—Lydia E. Pinkham's Vegetable Compound—and I took it steadily for a year. During this time I was carrying my second baby and I felt real well all the time and did not have a hard confinement. I feel sure the Vegetable Compound did me a lot of good, and all my people do, too. One sister in Leamington, Ontario, takes it, and both sisters praise it as a good medicine. I am more than pleased with the result."—Mrs. W. Penn, Windsor, Ontario.

Mrs. Corbin Relieved from Pain

Stewiacke, N. S.—"I had pains across my back and in my side for two years after my first baby was born. My mother had taken Lydia E. Pinkham's Vegetable Compound and I read about it in the papers, so I tried it and the pains all left me. I have a family of three children now, and the medicine helped me during the months before they were born. I recommend it to my friends."—Mrs. Cary W. Corbin, Main Street, Stewiacke, Nova Scotia. O

W. N. U. 1621

Striking Medical Testimony

The definite decision by eminent medical authorities that cancer is caused by dietetic errors common to civilization is of vital importance to sufferers. The necessity for including in the dietary regular quantities of uncooked fruit and vegetables is insisted upon, as the process of cooking robs them of their valuable salts. The new method of treatment consists, therefore, of giving patients regular quantities of the assimilable "salts" of potassium, and placing them on a dietary which is rich in potassium in its natural condition. The results are proving so highly successful that medical men are recommending or adopting it on behalf of their patients. The following is only one of a large number of similarly encouraging letters we receive from doctors proving the great value of the Cantassium Treatment to patients suffering from cancer:—

Oct. 2, 1924, Colchester.

"Having tried your 'Cantassium' on a patient, commencing July last, I was surprised to learn from her today that her two sarcomatous breasts, with frequent pain, have almost vanished. Please send me another 'Cantassium' treatment, for which I enclose cheque."

Yours faithfully,

Dr. H. W. ——— L.R.C.S.

A FREE BOOK, fully explaining the above treatment, has been written for sufferers or any one interested in the most successful method of fighting "The Cancer Scourge." Applications for this book should be addressed to Charles Walter, 51 Brunswick Avenue, Toronto 4, Canada. Sole Canadian and U.S.A. representatives. The Cantassium Co., England.

Little Helps For This Week

Withold not good from them to whom it is due.—Prov. iii., 27.

Be quick to praise, be slow to scorn,
For what the future holds—who knows?
Today the vine has but a thorn,
Tomorrow brings the rose.

There are a few hardy souls that can struggle on stony soil, shrubs that can wait for the dew and sunbeams, vines that will climb without kindly training—but only a few. Utter the kind word when you can, give the helping praise when you see it is deserved. The thought that "no one knows and no one cares" blights many a bud of promise.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Exterminator to drive out the parasites.

There is reason to all things, but it's different with some people.

Minard's Liniment for dandruff

Fine for catarrh when melted in a spoon or snuffed up the nose and vapors inhaled.

Head and Chest Colds Relieved In a New Way

A Salve which Releases Medicated Vapors when Applied Over Throat and Chest.

Inhaled as a vapor and, at the same time absorbed through the skin like a liniment, Vicks Vaporub reaches immediately inflamed, congested air passages.

This is the modern direct treatment for all cold troubles that is proving so popular in Canada and the States where over 17 million jars are now used yearly.

Splendid for sore throat, tonsilitis, bronchitis, croup, head and chest colds, catarrh, asthma or hay fever.

Just rub Vicks over throat and chest and inhale the medicated vapors. It quickly loosens up a cold.

VICKS VAPORUB
Over 21 Million Jars Used Yearly

Settlers For Alberta

The advance guard of the 3,000 settlers, being sent out from Britain to Canada, is expected to reach Alberta soon. Preparations are under way to see that comfortable quarters await them. They will have good houses to start with and employment will be provided where required.

MARCH WEATHER DANGEROUS TO BABY

On Account of the Very Sudden Changes in Temperature

Our Canadian March weather—one day bright, but sloppy, the next blustery and cold—is extremely hard on children. Conditions make it necessary for the mother to keep the little ones indoors. They are often confined to overheated, badly ventilated rooms and catch colds which rack their whole system. To guard against these colds and to keep the baby well till the better, brighter days come along, a box of Baby's Own Tablets should be kept in the house and an occasional dose given the baby to keep his stomach sweet and his bowels working regularly.

Baby's Own Tablets are a mild but thorough laxative which never fail to regulate the stomach and bowels and thus relieve colds and simple fevers and keep baby fit. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta's Coal Production

The total coal production from the mines of Alberta during the past year amounted to 5,883,394 tons, or 679,681 tons more than the total for the preceding year. Last year's figures were made up as follows: Domestic coal, 3,156,359 tons; sub-bituminous, 581,835; and bituminous, 2,145,200.

AFTER SHAVING
Dilute Minard's one-half with cream or sweet oil, and apply to the face. Very soothing and refreshing.
MINARD'S "KING OF PAIN" LINIMENT

BAKERS' OVENS—Write for catalogue and list of used ovens. Hubbard Oven Company, 1100 Queen West, Toronto.

LEG SORES
ARE CURABLE. If you suffer from Leg Sores or Varicose Ulcers, I will send you absolutely FREE one of my famous book that tells how to be rid of these troubles for all time, by using my remarkable painless treatment. It is different from anything you ever heard of, and the result of over 45 years specializing. Simply send your name and address to Dr. H. J. WHITTIER, Suite 29, 421 East 11th Street, Kansas City, Mo.

ROYAL HOTEL, Stony Plain
PHILIP MILLER, :: PROPRIETOR
TELEPHONE EIGHTEEN

FIRST CLASS ACCOMMODATION FOR TRAVELLERS. EUROPEAN PLAN.
RESTAURANT IN CONNECTION.

Stony Plain and District.

On Wednesday, March 17, to Mr and Mrs Louie Baron, a son.

On Wednesday, March 17, to Mr and Mrs. Fred Giese, a daughter.

Mrs A Klapper is holding a big Clearance Sale at her farm 2½ miles S.E. of Town today.

The Royal Hotel is being given a much needed internal decoration at the hands of a quartette of painters.

Mr J Miller is shipping two more cars of Stony's choice potatoes to the States this week.

Carl Wagner of Keep Hills had the misfortune of having his right hand cut off while sawing lumber in the Mewassin district. His wound was attended to by Dr Ostway and he is now in an Edmonton Hospital.

The Edmonton Eskimo hockey team finished the season in first place, but it didn't do them any good, as they lost the final playoff to Victoria by the score of 5 3.

A certain party in the Golden Spike district was offered a handsome sum of money for his farm, but declined. He claimed that as frogs are scarce in Missouri and the supply here should be good this spring he will ship over a couple carloads of the choicest meats obtainable therefrom, which should net him about $2 per lb.

Definite arrangements were made by the council with Mr Armbruster to supply continuous electric power on Monday mornings from 9 until 12; Tuesday mornings from 10 till 12 and on both the above mentioned days from 1 p.m. until 6 p.m., with perhaps slight interuptions if he has to use more power at the mill.

The best Movie which was ever shown in Stony, was presented in Wudel's hall on Tuesday evening in the film of the "Iron Horse" and the large crowd, which attended, appreciated it greatly. The next show will be held in the course of a couple of weeks and Mr Crawford promises that it will be exceptional good. The date and picture will be announced later.

The big Masquerade Dance held at Wudel's hall on Friday night last was the best of its kind staged here for a long time. The costumes were of the best obtainable and the different characters represented were well imitated. The music was good and the 'Ride 'em Cowboys' greatly enlivened the proceedings by their new dancing tactics.

An amendment to the Game Act was passed in the Legislature recently, extending the open season for Hungarian partridge in Alberta another 30 days and making the season end on December 15.

Stony Plain and District. Calendar.

April 1—All Fools' Day.
—Meeting of Town Council
3—Inga councillors meet, Stony
5—Play, 'Miss Fearless and Co' in Wudel's Hall. Dance after.
6—Meeting of Spruce Grove Council

During the Spring and Summer months, the 3 local elevators will close at 5 p.m.

The L. A. will hold a sale of home made articles in the Town hall on Sat., March 27.

The Inga Council meets in Stony Plain on Saturday, April 3d.

Nobody as yet has been successful in opening the lock on the Radio at Millers. The time limit for trying the keys is tomorrow, March 26.

News Briefs.

The annual meeting of the Western Stock Growers Association will take place in Calgary on March 31st.

Coal production in Alberta last year amounted to 5,883,394 tons, an increase of 679,000 tons over 1924.

Total cars of grain shipped to the Western coast up till March 15th via C.N.Ry were 17,759, which is four times the amount delivered in the entire season last year to the Vancouver port.

The University of Alberta is arranging to stage the annual "Feeders Day" this year on April 10. This is the last day of the Edmonton Spring Show and it is being held at this time in order to give fair visitors an opportunity of attending. The results of the feeding trials conducted during the past year will be presented and discussed.

Spring work on the land is now general in the southern part of the province, where the weather has been warm and spring-like for some time. If the weather stays as fine as it has been the past few weeks, the farmers of this district will be able to start plowing in the course of a couple weeks.

Threshing Bill Must Be Paid.

An important decision was made in the district court at Wetaskiwin recently, when an action by Dyberg for $436.69, the balance owing on a bill for threshing Telford's crop, was up. Telford counterclaimed for $600, alleged damages suffered on account of negligent threshing, claiming that a large amount of wheat went over into the straw piles. The claim for the threshing was allowed but the counter claim was dimissed with costs.

Here and There

Vapor Valley, a virginal tract of land 135 miles from Vancouver, between Port Douglas and Lillooet on the Canadian Pacific Railway line, is to be the location of a large medical sanitarium and hunting lodge which is to be established this summer by a syndicate of Vancouver men.

General conditions on the prairies and in British Columbia indicate that Western Canada is headed for a period of real prosperity, Charles Murphy, general manager of the Canadian Pacific Railway, Western Lines, after a periodical trip of inspection, stated that farmers and business men alike have not been so optimistic on the prairies in years.

On March 3 a crowd of representative citizens gathered at the Canadian Pacific depot at Vancouver to welcome His Honor Lieutenant Governor Robert Randolph Bruce, of British Columbia. Forty years ago the hardy Scot left his ancestral home in Invermere, Scotland, to seek his fortune in the Canadian West. He found it.

During the month of January 1926, 15,704,700 pounds of refined sugar, valued at $760,483 was exported from Canada as compared with 197,400 pounds valued at $14,893 for January 1925. Of the total amount the United Kingdom took 11,750,000 pounds while Sweden was second on the list with 2,250,000 pounds.

A commission of three professors in agriculture will make a survey of the province of Ontario to ascertain the soils best adapted to the culture of tobacco. The commission will act under instructions from the Minister of Agriculture. Soil tests are to be made on various farms and also at the government experimental stations within the tobacco districts.

Government statistics show that the average wages per month paid to farm helpers in the summer of 1925 over the whole of Canada was $40 for men and $22 for women. The value of board received was reckoned at $23 for men and $10 for women. The total received, therefor, for wages and board in 1925, was $63 per month for men and $43 for women.

At the third triennial conference of the National Council of Education to be held in Montreal during the week of April 5, men famous in the world of music will deliver addresses which should add much to the knowledge of the subject. Sir Hugh Percy Allen, professor of music in the University of Oxford and conductor of the Bach Choir at London, will speak on "Music as a National Discipline."

Roy Andrews Chapman, the famous explorer of New York, has sailed for the Orient on the Canadian Pacific liner Empress of Russia bound for the Gobi desert where he will endeavour to establish definite proof that Ancient Asia was the Mother of Life in Europe and America. The Andrews caravan includes noted scientists, taxidermists, photographers and a motion picture cameraman.

With a population of 9,000,000 Canada has as much foreign trade as the United States had with a population of 76,000,000. Mining production in the Dominion is as great as when the United States had 38,000,000 people while Canada manufactures as much as the country across the border did with 50,000,000 inhabitants. Today the Canadian per capita export trade amounts to $134 while in the United States it is only $37.
